The world's best floodlight is now even better.

FFLED—field adjustable, more sustainable, and unbeatable warranty.

10-YEAR, NO-COMPROMISE WARRANTY*

100K HOURS

480V OPTIONAL

DLC PREMIUM LISTED

IP66 RATED

Need flexibility? The FFLED does it all.

The incredible FFLED just got an upgrade that maximizes versatility: 3 sizes, 8 wattages, 3 mounting options, and 3 CCTs. In addition to the selectable CCT, models are also available with a static 3000K to help meet Dark Sky and municipality requirements.

Less is more.

The FFLED has been reimaged as a lighter, smaller, more sustainable floodlight. That means less materials, less packaging, and less fuel to transport, reducing its environmental impact and making it easy to choose the FFLED to solve your floodlighting needs.

Ultra efficient.

With a super-high efficacy of up to 151 lm/W, the FFLED can save up to 75% in energy costs.

Stay in control.

The FFLED is available with either a button photocell or a 7-pin receptacle that's perfect for use with RAB's standard twistlock photocell or our smart, lightcloud-enabled twistlock photocell.**

**Standard Twistlock (120-277V): *RPCT*
Standard Twistlock (480V): *RPCT-480*
Lightcloud-Enabled Twistlock (120-277V; requires Lightcloud Gateway or Hub): *LCTWIST/K*
