FRAME

FIELD ADJ.
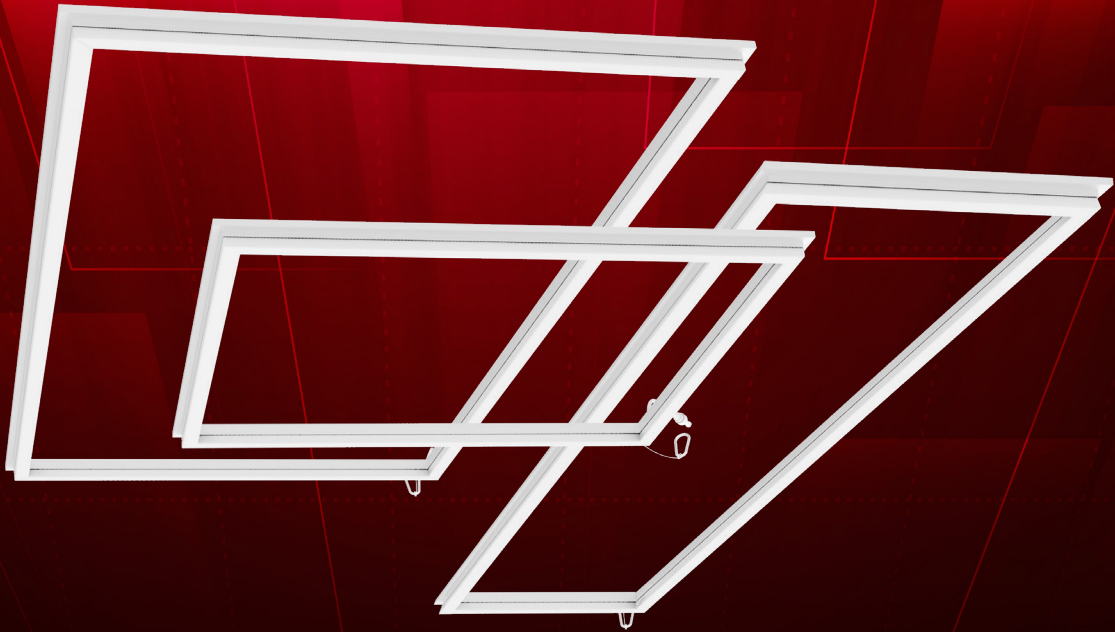

Get into a new FRAME of mind.

Contemporary elegance meets ultimate flexibility.

Take your lighting to the edge.

The FRAME redefines commercial lighting with its minimalist approach. It's simply a frame that's edge lit—but don't let its simplicity fool you. Its clean aesthetics make it ideal for modern office spaces, retail applications, and any application where clean lines and quality lighting are essential.

Flexibility to the max.

Available in 2x2, 1x4, and 2x4 that are easily installed into existing t-grids, each model offers five field-adjustable CCTs and wattages to ensure that the FRAME fits seamlessly into your space.

Smart control at your fingertips.

Lightcloud®

The Lightcloud Blue app lets you take complete command of your landscape lighting. Beyond the general controls that bring your outdoor spaces to life, Lightcloud Blue also lets you easily create and adjust scenes and set schedules.

Always have a backup plan.

For added peace of mind, emergency battery backup options are available with an off-board battery that mounts directly onto the t-grid bracket, making installs a breeze.

Ordering Matrix
