

RAB®

LF17

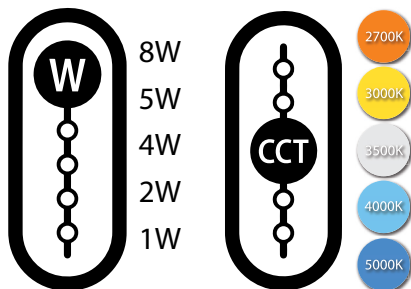

Now available with motion detection!

The innovative, versatile LF17 floodlight.

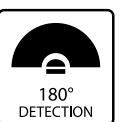

Cutting-edge design. Easy-access adjustment.

Fine tuning your light just got easier than ever... before and after installation! Say goodbye to those hard-to-reach switches. The LF17 has two handy buttons that let you quickly toggle through five wattages and five CCTs.

Double down.

Sometimes, you need two floods to get the job done, so the LF17 is available in dual-configuration models with or without our integrated SMS500 motion sensor for 180° detection at distances of up to 30 feet.

Unbeatable value.

Designed for 120V use, the LF17 is perfect for residential applications but no other landscape light in its price point does what the LF17 can do. It boasts completely unique field adjustability, high-performing optics, and 0-10V dimming all at a price that's not to be believed.

50,000-HOUR
LED LIFESPAN

5-YEAR
LIMITED
WARRANTY

RAB's warranty is
subject to all terms
