

RAB®

ORB

Can your lighting do a 180°?

Introducing...ORB borderless downlights.

180° Illumination.

Unlike a standard downlight, which only projects light downward, the ORB's unique design delivers diffuse, uniform light both down and outward an entire 180°, creating a "borderless" lighting experience.

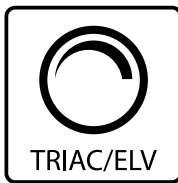

Install it anywhere!

The ORB is flexible enough for retrofit, remodeling, or new construction applications and is IC rated for direct contact with insulation—no housing or j-box required! Just cut your hole, wire the driver, and secure the ORB with the torsion springs.

Available in 4" and 6" models, it's designed for 120V use and includes TRIAC/ELV dimming down to 10%.

High performance without the high price.

All models of the ORB include 5 selectable CCTs and deliver 90 CRI for accurate color rendering.

50,000-HOUR LED LIFESPAN

5-YEAR NO COMPROMISE WARRANTY

RAB's warranty is subject to all terms and conditions found at rablighting.com/warranty
