- 3000K
- 4000K
- 5000K

More field-adjustable options!

The YBLED is now available in two power packages, both with three selectable CCTs, making it more versatile for use in large spaces.

Corner-to-corner output.

The YBLED kicks out up to over 17,300 lumens to light your property end to end, and replaces up to 400W MH or 310W HPS.

On when you need it,
off when you don't.

The YARDBLASTER family comes standard with an integrated photocell but can also be ordered with a twistlock photocell.

Note: When using the twistlock, be sure that the switch for the integrated photocell is set to "Off" (default factory setting).

YARM24

Mounting options.

The YBLED can be attached to RAB's YARM24 for pole mounting applications.

Built to last.

With an IP65 rating, a vandal-resistant polycarbonate lens and a rugged die-cast aluminum housing, it's built to withstand the elements.
