

Add color to your spaces!

Our RGBW models (with static wattage) that are compatible with our Lightcloud Blue control system. Choose from 16+ million colors for any mood and control CCT with tunable white light (2200 - 6500K).

Features

No Gateway or Hub required:
Using Bluetooth Mesh, each device communicates with the others to extend the range further.

Rapid Provisioning: Pair in groups of up to 100 fixtures simultaneously in minutes. Save time and labor.

Tunable White: Color temperature that is fully adjustable within the specified range

SmartShift: Circadian lighting adjusts light levels and CCT to match the natural pattern of the sun

Natural Spectrum Technology: Emits less sleep-disturbing blue light, promoting healthier sleep. Also renders colors much more accurately so you can see them as they truly are.

Tunable Color: Select from 16+million colors to customize your space to suit any mood.

RGBW Color Tuning

Choose between 16+ million different colors to fit any mood.

Tunable White

Freely adjust the color temperature between a warm 2700K to a cool 6500K.
