

RAB

RPLED

Time saving, cost effective,
and field adjustable—RPLED.

Update your lighting without full fixture replacement.

Power and CCT selectable.

Just like our RTLED retrofit troffer, the RPLED panel is available in three sizes, each with three selectable wattages and color temperatures, helping to reduce SKU inventory while giving you complete control over your lighting needs

100,000-HOUR LED LIFESPAN

BATTERY BACKUP

RDLED products are DLC Premium listed

5-YEAR LIMITED WARRANTY

RAB's warranty is subject to all terms and conditions found at rablighting.com/warranty

Watch cost savings multiply.

The contractor-friendly RPLED can be retrofitted in just a couple of minutes—far faster than a complex, full fixture replacement. Multiply that across an average project and that's massive labor savings! And with an efficacy of up to 148 lm/W and DLC Premium listing, it's eligible for countless utility rebates

Upgrade aesthetics on a budget.

The panel's design includes a diffusion lens that delivers even ambient light, a brighter and more efficient output, and eliminates that annoying flickering... all without the need for expensive renovations.

BAT. BACKUP

MSR1 remote for use with sensors

Integrated sensor options.

The RPLED is available with various options, including a battery backup, a microwave (MVS) sensor, and factory-installed compatibility with our Lightcloud Blue control system.
