

RAB[®]

LED T8 Ballast Bypass Tubes

Now with selectable wattage and CCT!

RAB's warranty is subject to all terms and conditions found at rablighting.com/warranty

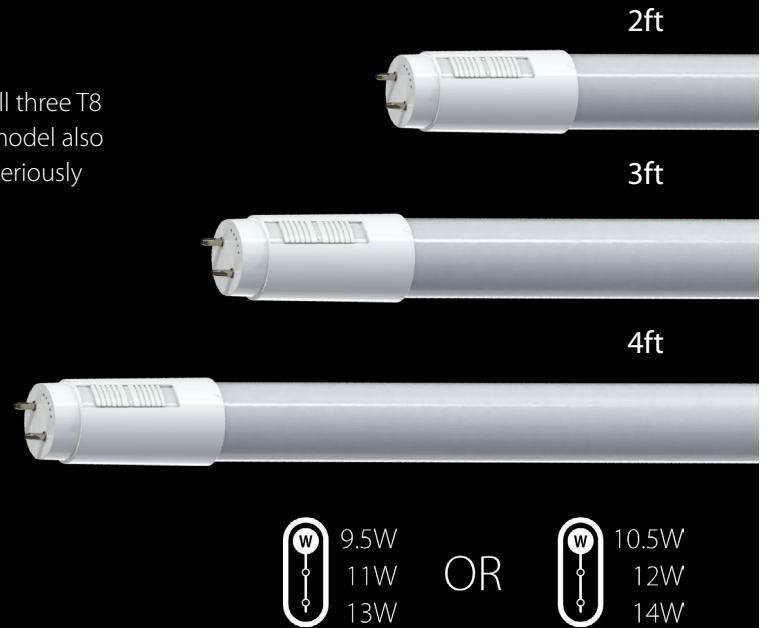

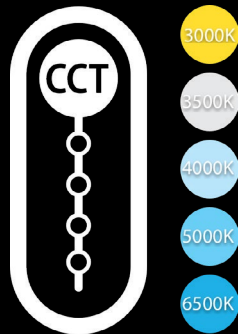

Up to 15 SKUs in 1

RAB's Type B, single+double ended bypass tubes pack a ton of features into one lamp with selectable CCT. Throw in selectable wattage and you can drastically reduce the number of stocking SKUs needed!

- Ballast Bypass**
Bypass the existing ballast and wire directly to line voltage
- SD Single & Double Ended Installation**
Can be installed on Shunted or Non-Shunted Sockets
- Fluorescent Replacement**
Replace conventional fluorescent T8 or T12 linear tubes
- Diffusion Coating**
Will maintain the same light quality over time and won't yellow, shrink, or wrinkle
- Save Energy and Money**
Approximately 40% more efficient than conventional T8 lamps
- Mercury Free**
Environmentally friendly vs fluorescent technologies
- lm/w Highly Efficient**
Can exceed up to 173 lm/w

Flexibility to the max!

In addition to being single+double ended, all three T8 lengths offer 5 selectable CCTs, and the 4ft model also boasts 3 selectable wattages—these tubes seriously do it all!

Ordering Matrix

Product Family	Wattage	Length/Material	CRI/Color Temp	Voltage/Dimming	Wiring Method	Installation Type
T8	7 9	24G Glass 2FT 3FT	80CRI, 3000/3500/4000/5000/6500K Field-adjustable	Blank 120V; TRIAC/ELV	Blank Single & Double Ended	BYP Ballast Bypass
